**Subject:** Hunters Point Naval Shipyard PRGs

Mr. Macchiarella,

Attached please find a letter on behalf of our client Greenaction for Health and Environmental Justice regarding the Navy's improper withholding of its Preliminary Remediation Goal (PRG) calculations - EPA's required procedure for establishing cleanup standards - during the *Parcel G Work Plan* and *Five Year Review* processes.

As the letter states, the Navy appears to have manipulated the above-referenced processes to deliberately withhold the PRG information and preclude public comment in direct violation of the provisions of CERCLA. If the Navy finalizes either the *Parcel G Work Plan* or the *Five Year Review* without providing a formal comment period for each it will be acting arbitrarily and capriciously.

Thank you for your attention to this matter.
